¹ The Court has not decided whether the patent portion of the 10X Case and the Stilla Case will be tried together, and the parties will have an opportunity to submit their positions on the issue. *See* 10X Case ECF No. 39 at 19; Stilla Case ECF No. 59 at 3; Stilla Case ECF No. 78; July 31, 2020 Hearing Transcript at 18:18-19:23.

² Substantial Completion of ESI Production requires parties to have completed a good faith review and production of all documents for terms agreed on prior to 1/1/2021, including a review of documents for privilege and a production of documents with privilege redactions.

³ 10X proposes that the deadline for amendment of pleadings without leave of Court be March 11, 2021 for the patent case and April 23, 2021 for the antitrust case. Bio-Rad does not agree that 10X should be allowed to amend pleadings without leave of Court at this stage. To conserve the Court's and the parties' resources at this time, the parties have agreed to raise this issue with the Court later, if and when 10X attempts to file amended pleadings.
